

# S14L279: Install Redux

Redux: npm install --save redux

```
const redux = require('redux'); //nodejs syntax
const createStore = redux.createStore;

const initialState = {
  counter: 0
}

// Reducer
const rootReducer = ( state = initialState, action ) => {
  return state;
};

// Store
const store = createStore(rootReducer);
console.log(store.getState());

// Dispatching Action

// Subscription
```
